Project title: NDMC Phase II: Developing Models to Estimate and Project Disease Burden to Inform Control and/or Elimination Strategies for Priority Diseases in India

About the project: IIT Bombay is the lead institution of the National Disease Modelling Consortium (NDMC). The consortium partners with various institutions across the country for disease modelling research. The consortium aims to develop India-specific disease models to address policy and programmatic questions, to improve disease control and intervention strategies in the country. More information about the consortium can be found at www.ndmconsortium.com

Essential Qualifications & Experience:

Professionals having proven competency and success in their area of specialization, with at least 10 years of post-qualification experience and should possess minimum M.Sc / B.Tech/ BE / MCA / MPH / B. Pharma/ BAMS/ BSMS / MD in Ayush or equivalent qualifications in relevant subjects. Preference will be given to PhD in Engineering / MTech/ME/MDes OR PhD in Sciences

Note:

1. PhD will be considered as 4 years' experience (irrespective of the duration taken to complete the degree)
